To Whome it may Concern,

I would just like to say that as a kitchen manager, I have found your Strainers to be worth every penny. I find that my floors stay cleaner (or debris free) as food no longer washes out of the drain Strainers onto the floor, they are also compact and easy to keep clean.

However, the greatest gain I have found since using your Strainer is that my store is no longer incurring great surcharge fees from the water authority due to high levels of food as products and chemical run offs. No food down the drain equals no charges from your water authority. The Strainers have already paid for themselves and I have ordered two more, four all together. Thanks from Juan at Pondrosa
