One-Year Commercial Product Warranty

This warranty is provided by Drain-Net for GreaseWatch products sold in Canada and the continental United States. GreaseWatch monitoring systems ("GreaseWatch") are intended solely for commercial, industrial, or institutional use and are not intended for residential or consumer applications.

Drain-Net warrants to the original purchaser that each GreaseWatch monitoring system purchased from Drain-Net will be free from defects in materials and workmanship for one (1) year following the date of initial delivery to the purchaser, subject to the terms and conditions below.

Warranty coverage

Upon submission of a warranty registration card to Drain-Net by the owner within the first thirty (30) days of ownership, Drain-Net further warrants that, if GreaseWatch is installed, operated, and maintained in accordance with Drain-Net instructions and applicable state, provincial, and federal regulatory requirements, the GreaseWatch device will function for one (1) year from the date of initial delivery.

Conditions and exclusions

1. GreaseWatch must be installed, operated, and maintained in accordance with the GreaseWatch Installation Instructions and GreaseWatch Owner's Manual.
2. No post-installation alterations or unauthorized repairs may be made to the original GreaseWatch system.
3. The original installation must be located in Canada or the United States.
4. The original installation must be performed in accordance with GreaseWatch installation procedures by a trained contractor holding all registrations, certificates, and licenses required to complete the installation, repair, or alteration in accordance with recognized industry practices and applicable regulatory requirements.
5. GreaseWatch must be operated and maintained in accordance with regulatory requirements designed to minimize the possibility of structural failures and releases of regulated substances.
6. GreaseWatch may not be installed or used in any application other than commercial, industrial, or institutional use.

7. If GreaseWatch is remanufactured, moved, or removed from the installation for any reason before this warranty expires, warranty protection will terminate unless GreaseWatch is inspected, repaired as necessary, and recertified by Drain-Net. Upon reinstallation, the purchaser must continue to satisfy all other warranty conditions.
8. Accessories, including but not limited to batteries, are warranted for one (1) year against defects in materials and workmanship from the date of shipment.
9. Consumable parts, including but not limited to mounting hardware, are excluded from this warranty.
10. The customer assumes the risk of, and agrees to indemnify and hold Drain-Net harmless from, all liability relating to: (i) assessing whether GreaseWatch, or any system design or drawing, is suitable for the customer's intended use; and (ii) determining whether the customer's use of GreaseWatch complies with applicable laws, regulations, codes, and standards. For GreaseWatch products resold by the customer, the customer accepts full responsibility for all warranty and other claims relating to or arising from any customer system that includes or incorporates GreaseWatch or components manufactured or supplied by Drain-Net. The customer is solely responsible for all representations and warranties regarding that system made or authorized by the customer and will indemnify and hold Drain-Net harmless from any liability, claim, loss, cost, or expense, including reasonable legal fees, attributable to the customer's system or representations or warranties concerning it.
